**Course Outcome:** In this workshop we use a fabric paint that acts like a dye flowing and mixing on the fabric. Incorporated in this tutorial are some basic concepts in colour. In other words when your colours blend you get to see what happens.

We will use a combination of natural fabric, cotton or silk.

We will spray bottles, sponges, brushes and rollers to apply the paint onto the fabric creating backgrounds and feature works.

**Participants to bring:**

Students need to bring 2 metres of fabric or a couple of light coloured cotton T-shirts (pre-washed). Silk and fusible webbing can be purchased from the tutor – price on application (effected by the US\$).

**STUDENTS ARE TO ATTEND CLASS WEARING CLOSED IN SHOES,  
AN APRON OR COVERALL AND GLOVES WHEN WORKING WITH  
THE PAINTS ALL TIMES**
